

ARMOR PLANT STUMPS BOARD

Members to Visit Many of 125 Sites Proposed

TWENTY STATES IN STRUGGLE

Decision on \$11,000,000 Prize Held Up 3 to 6 Months

Washington, Sept. 15.—With the completion of arguments by representatives of 125 cities that want the government armor plate plant expected to-day, the navy general board has decided to visit a majority of the sites proposed before deciding the question which so vitally interests a score of states.

Some of the cities' propositions, it was said, will necessarily have to be abandoned at the start because sites suggested do not come within that section of the law which provides that the plant must be selected "with special reference to safety in time of war."

That section, all members of the general board interviewed yesterday said, will be the principal issue involved in the location of the plant that will mean employment to many thousands of men and a payroll of many hundred thousands a year.

So important do members of the general board regard the question of "safety of location in time of war" that other important considerations, such as availability of raw material, transportation facilities and other considerations, will be waived if necessary to meet the provision.

From an authoritative source it was learned yesterday that the following big factors must be considered in deciding on a location:

Cost of land for site.
Availability of raw material.
Condition of labor market.
Transportation facilities, with the bridges to be crossed or tunnels on the lines to shipbuilding plants, are factors of first importance. In this connection it was explained that the size and immense weight of the finished product made the subject of bridges and tunnels a prime consideration.

INDIAN TRIBE TO SUE FOR CHICAGO LAKE FRONT

Legal Proceedings Soon To Be Started By the Pottawama Tomia Indians.

Mayetta, Kan., Sept. 15.—The Pottawama Tomia Indians soon will institute legal proceedings to gain possession of an attack lakefront at Chicago. Announcement that the necessary suits would be filed was made here following a meeting of the tribal council Wednesday.

FEARS VILLA.

Chihuahua City Apprehensive of an Attack By Him.

San Antonio, Tex., Sept. 15.—Gen. Bell at El Paso yesterday reported to Gen. Funston that he had reports that an attack at Chihuahua City by Francisco Villa was feared by the Carranzistas. De facto government troops were being rushed into the city from the south it was reported.

Gen. Funston said he did not know where Gen. Bell got his information. Gen. Pershing's latest despatches placed Villa near Guerrero, some 80 miles west of Chihuahua City.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, rich, well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuff from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach, is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast, the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

THAT LIVER IS NO GOOD

that is so lazy it lets the skin do part of its work. The skin turns yellow. Such a liver upsets the whole system. Take Hood's Pills, they put the liver to work; best for biliousness, yellowness, constipation. Do not give it nor give it. Price 25c, of druggists or C. L. Hood Co., Lowell, Mass.

Cincinnati	53	86	.381

BASEBALL BRIEFS.

Christy Mathewson, manager of the Cincinnati Red Birds, says that of all the old stars of the Red Sox is playing the best of any of them. That Collins has been a big factor in the showing of the White Sox this season cannot be denied; also Plank, Coombs and Baker of their respective teams have been standbys of their teams, but that Barry has played the most consistent game of the once great team. In discussing the chances of Connie's 1917 team, Mathewson speaks of the pitchers, who are rounding into class and of the spectacular playing of Witt, the old Goddard infielder, in his first season of big league playing.

M. Acosta, who was recalled by the Minneapolis team in the American association a few weeks ago when Rondeau broke his leg in sliding to third base, received the same kind of an injury in Wednesday's game as he slid into second base against the Columbus team. Acosta is the second Cuban ball player of repute who has fractured a leg within a week, Cuto being the other player. Cuto broke his leg as he slid into second base in Monday's game at Newport News, Va.

Fred Mitchell, the Harvard baseball coach and ex-Braves' player, may be seen in a Chicago National uniform next season, as Pres. Veechman is dissatisfied with the showing of the Cubs under Timmer's management and would like to get Mitchell to pilot the Chicago team during the next campaign.

Howard Emhke, the product from the New York State league, made a good showing against the Cleveland Indians in his debut in the American league by holding the sliders to a pair of safe drives.

Shay, the old Goddard infielder and shortstop on the St. Johnsbury nine during the summer months of the last two seasons, left St. Johnsbury yesterday for Boston, where he will meet the St. Louis Nationals and receive a tryout during the remainder of the season. Shay came to Goddard two years ago and played the infield along with Witt during his first year, and during the past season he has been playing shortstop with Faulkner and Conner on each side of him. Shay is quick and accurate in his fielding and with a remarkable eye for the ball when at bat. Last season he yielded the willow at St. Johnsbury for an average of .410; at Goddard his batting figures were .380 and his summer playing this year at St. Johnsbury has been the most remarkable of his career, as he clouted the leather for an average of .419.

ALONG THE SIDELINES.

Candidates for the Yale football team are well under way in their season's preliminary practice. Last year's most disastrous season still rankles in their bosoms and no stone will be left unturned in their endeavors to avenge some of the defeats of last year. If a large and capable coaching staff has anything to do with the making of a team, Yale will have the best team of several seasons. Tad Jones has been on hand from the start and is assisted by Walter Camp, Jack Osley, Dr. Ball, Clinton Roraback, Michel Sweeney, Clarence Alcott, Jack Field, Bill Marting and Dr. Brides. A. O. Stagg took a run over to the Yale field the other day, but took no active part in the coaching.

Coach Bob Feltwell received word from Howard Berry, the crack all-around athlete of the University of Pennsylvania, yesterday that it will be impossible for Berry to secure his release from the Pennsylvania National Guard in time to participate in any of the football games this fall. This news is a severe blow to the Quakers' showing on the gridiron this year.

Down at Princeton, the football men have inherited some gloom from last year because of the loss of Yates and Dickerman. Both of these men did some great work in last year's indelible list and Princetonians were in hopes that they would be up and doing by the time this season rolled around. Both of these men have taken up work outside of college; so the coaches will have to dig up new material. The squad is playing at Lake Minnewaska on account of the infantile paralysis near Princeton.

LIMA, O., FEARS A LYNCHING.

Negro Is Held for Assault on a White Woman.

Lima, O., Sept. 15.—James Smith, 31, a negro, is being held in secret confinement by the police on a charge of assaulting Mrs. Grover Knittle, a white woman, in her home here Wednesday night. Sheriff Eley and his deputies are taking every precaution to prevent a recurrence of the mob violence and rioting that took place less than two weeks ago, when an angered mob of citizens sought to lynch Charles Daniels, another negro, who attacked Mrs. Vivian Baber.

9,096 PEOPLE AT STATE FAIR

Third Day Saw Some Splendid Horse Racing Events

MILKING CONTEST HAD 8 ENTRIES

Many Fine Horses Were Exhibited and Prizes Were Awarded

White River Junction, Sept. 15.—The attendance at the Vermont state fair yesterday was 9,096. There were 774 automobiles and 98 teams on the grounds. Judging in all classes was continued. In Morgans, class No. 18, pair shown in harness to a four-wheel vehicle, Emily and Welcome of the Morgan Horse Stock farm, Windsor, drew first premium, and Hippolita and Rose of Sutton, from same stables, the second; Mayflower and Georgia, owned by Miss Sue Everts, fourth; E. A. Darling's second entry, Little Justin and Jonathan J., taking the third. Class No. 27, stallion, mare or gelding three years old and over most true to ancient type, Emily of the Morgan Horse Stock farm first, Lyndon of E. A. Darling's string second, and Success, belonging to H. R. C. Watson of Brandon third.

H. S. Wardner had eight fine Morgans on exhibition, the stallions Windsor Morgan, Streeter Morgan, Woodbury Morgan, Dan Linsley, the filly Harriet Porter and the mare and foal Nell Porter and Maple Sugar.

E. H. Coe of West Burke, a new exhibitor of Morgans, with the stallion Cap Morgan at the head, whose stock were just taken from the pasture and are not fitted up for show purposes as some others, and whose exhibit included mare Ruby with colt foaled in May, 1916, sold the latter yesterday to Austin White of Kendall Green, Mass., for \$100 and Mr. White will ship the animal home from here. It is a fine colt and was sired by Cap Morgan.

The Morgan Horse Stock farm, owned by A. Fullerton Phillips of Windsor, has a string of beautiful Morgans and they took many premiums. The stallions Welcome, Dan Cushing, Hawkeye, Crocydon Prince, Uncas and Count Woodbury, with Emily and Hippolita and five mares with foal of this year, made a good showing. In Miss Everts' string were Donaldson, the three-year-old Mayflower, and Georgia, half sisters, the yearling Susie and foal stallions.

At the meeting of the Morgan Horse club which was held Thursday noon at the commissioners' room in the administration building the officers for the ensuing year were elected as follows: President, E. A. Darling, West Burke; secretary and treasurer, C. C. Stillman. There were brief talks by Pres. Darling, H. S. Wardner and V. C. Paddock of Claremont, N. H. No collation was served, nor were there any new outlines for work formulated.

The judging of saddle horses took place yesterday afternoon in the area in the rear of the judges' stand near the track. In the entry for those under 14½ hands high with three entries Miss Jo Everts won the blue, Miss Helen Gillette the red, and Miss Everts' other horse the white. In the class 14½ hands or over, H. R. C. Watson's Evelyn took the blue, W. R. Brown's Arab stallion of Berlin, N. H., the red, and E. A. Darling's Boots took the white. There were eight contestants and it is safe to say a finer looking lot of saddle horses were never exhibited on these grounds.

The milking contest followed immediately after at the same place, there being seven contestants. Fifteen had been entered but owing to the age limit of attendance some of the younger entries were barred out. Those contesting followed in order of winning, with amount of milk to the minute:

Pearl Cadwell of East Thetford, 16, 2.22.
Louisa Cadwell of East Thetford, 15, 2.14.

Polly Everts of Windsor, 18, 1.71.
Emma E. Coombs of Thetford, 17, 1.63.
Etta M. Parsons of Bethel, 16, .86.
Ruth E. Cadwell of Thetford, 17, .81.
The prizes were \$20, \$15, \$10, \$5, \$2.50, and the latter two contestants receiving gold brooch pins.

In the public service building there about the same number of visitors as the day previous, with 34 hospital cases, mostly extension, with one case of sunstroke. Pres. Estee addressed the boys of the extension service in the evening at the grounds.

The racing events yesterday were the 2:20 class trot for a purse of \$1,000, a 2:24 trot which went five heats and a 2:17 pace which did not finish until sundown and went six heats and was won by Hal Perkins, Jr.

Two more successful balloon ascensions were made by Prof. Bonnette, the first going up very straight and alighting just outside the grounds in the highway. In one of the races Driver Harding was thrown from his sulky and his horse broken and face scratched, his horse stumbling in his hobble when another horse

Various Forms Of Headache

"It is necessary in order to treat headache properly to understand the causes which produce the affection," says Dr. J. W. Ray, of Brockton, Ala. Continuing, he says, "Physicians cannot even begin the treatment of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose, anti-kamnia tablets will be found a most convenient and satisfactory remedy. One tablet every one to three hours gives comfort and rest in the most severe cases of headache, neuralgia and particularly the headaches of women."

"When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than 'Anticoide,' and when he feels the first signs of coming attack, he should take two A-K Tablets. Such patients should always be instructed to carry a few anti-kamnia tablets, so as to have them ready for instant use. These tablets are prompt in action and can be depended on to produce relief in a very few minutes. Ask for A-K Tablets, anti-kamnia tablets at all druggists."

Time—2:20½, 2:18½, 2:26½, 2:24½, 2:23½.

Good Feeling at Harvard.

As an illustration of the excellent good feeling there is at Harvard university Pres. Charles W. Eliot tells this story:

"To prove to you," he said, "that this good feeling extends from the top to the bottom, from the undergraduate to the president: I was coming home late one evening and two undergraduates were walking just in front of me who did not know I was back of them. When we passed my house one of them, seeing the lights on my gateposts lighted waiting for me, said: 'Oh, I see Charlie is out late again this evening!'"

GOLF BAD FOR NERVES.

Which Sport Strains Your Nerves More?

"Jerry" Travers in the September American Magazine asks:

"Of all the games that many millions now play, which one carries the greatest nerve strain?"

"Football, baseball, boxing and tennis carry physical strains of much greater proportion, but none of these has as heavy a nerve strain as tournament golf. For here there is none of the hard, swift physical action that might heighten one's nervous energy, and so relieve the pressure. There is always plenty of time to consider the possibilities of success or failure, and there is nothing to lift this constant strain."

Her Valuation.

Little Mary looked at the penny which had been given to her for the collection with evident satisfaction and then, closing close to her aunt, whispered: "How much are you going to give?"

Her aunt, opening her hand, displayed a quarter of a dollar.

"Oh," exclaimed Mary excitedly, "don't do it! It isn't worth it!"

PERSONALS

Mrs. John Kelly of 5 W. 101st street, New York City, says: "Whenever my little boy feels him down or in poor health, we give him Father John's Medicine, and it proves beneficial every time. I have taken it myself with good results."

Mrs. James Williams of 51 Grove avenue, E. Providence, R. I., tells her friends: "All of my family have used Father John's Medicine with good results for several years, whenever we needed a tonic. My baby, Inez, aged 4, gained excellent health by using it."—Adv.

BETHLEHEM STEEL

JUMPS 20 POINTS WITHIN AN HOUR

Extraordinary Rise in Stock Market Unequaled Since "War Brides" Movement Last Year.

New York, Sept. 15.—The extraordinary rise in the stock market of the past fortnight unequalled since last year's movement in "war brides," attained wider and more impressive proportions yesterday, the first hour's trading of almost half a million shares being attended by gains of one of three points in industries, equipments, motors, oils and shares of almost every other description, with a twenty-point advance in Bethlehem Steel at 57½.

United States Steel was the chief feature, rising to 106½ in the first hour and exceeding its previous record by three-fourths of a point.

Demand for Studebaker Steel, Baldwin Locomotive, New York Air Brake, Mexican petroleum and related issues carried these stocks two to five points above yesterday's final prices.

Rails were relatively inconspicuous although Reading, Union Pacific and New Haven were higher by one to two and one-half points. Profit taking was in such enormous volume during the forenoon as to effect reversals of one to two points from best prices of the opening. This was offset, however, by fresh buying, much of which seemed to originate from out of town sources.

The character of the trading indicated an increase of public interest, although this was not seen in the investment group. There is no let up in the feverish activities of the first hour, sales at one o'clock amounting to 1,170,000 shares, or

at the rate of almost 2,000,000 shares for the full session.

Additions to early high records were made by U. S. Steel at 107, Republic Steel at 69½, and several of the leading coppers. General Motors rose 53 points to 750, a gain of 176 points since last week.

Reading also sold at the unprecedented price of 114½ and other leading rails developed renewed strength. Marines contributed largely to the enormous turnover, the common at the new high of 50½.

Reactionary tendencies were shown by other shipping shares and Crucible and Baldwin temporarily lost their gains, with weakness in Kelly-Springfield Tire.
